INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of the
Galveston Independent School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Galveston Independent School District (the "District"), as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of August 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability, and schedule of District contributions, identified as Required Supplementary Information on the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and other supplementary information are presented for purposes of additional analysis and are not required parts of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards, and other supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards, and other supplementary information are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2016 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with

certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

***MANAGEMENT'S DISCUSSION
AND ANALYSIS***

(This page intentionally left blank.)

GALVESTON INDEPENDENT SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Year Ended August 31, 2016

The purpose of the Management's Discussion and Analysis (MD&A) is to give the readers an objective and easily readable analysis of the financial activities of the Galveston Independent School District (the "District") for the year ending August 31, 2016. The analysis is based on currently known facts, decisions, or economic conditions. It presents short and long-term analysis of the District's activities, compares current year results with those of the prior year, and discusses the positive and negative aspects of that comparison. Please read the MD&A in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's total combined net position at August 31, 2016 was \$63,341,008.
- For the fiscal year ended August 31, 2016, the District's general fund reported a total fund balance of \$30,725,089, of which \$1,153,797 is nonspendable, \$10,000,000 is committed for construction-related purposes, and \$19,571,292 is unassigned.
- At the end of the fiscal year, the District's governmental funds (the general fund plus all state and federal grant funds, the debt service fund, and the capital projects fund) reported combined ending fund balances of \$39,034,926.

OVERVIEW OF THE FINANCIAL STATEMENTS

The annual report consists of three parts – *Management's Discussion and Analysis* (this section), the *Basic Financial Statements*, and *Required Supplementary Information*. The basic financial statements include two kinds of statements that present different views of the District.

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in more detail than the government-wide statements.
- The *governmental funds* statements tell how *general government* services were financed in the *short-term* as well as what remains for future spending.
- *Proprietary fund* statements provide information about the financial relationships in which the District acts in a manner similar to that of a private business. These statements include the District's internal service funds.
- *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others to whom the fiduciary resources belong. These statements include trust funds and a student activity fund.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The notes to the financial statements are followed by a section entitled *Required Supplementary Information* that further explains and supports the information in the financial statements.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
For the Year Ended August 31, 2016

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide statements report information about the District as a whole. These statements include transactions and balances relating to all assets, including infrastructure capital assets. These statements are designed to provide information about cost of services, operating results, and financial position of the District as an economic entity. The Statement of Net Position and the Statement of Activities, which appear first in the District's financial statements, report information on the District's activities that enable the reader to understand the financial condition of the District. These statements are prepared using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account even if cash has not yet changed hands.

The Statement of Net Position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Other non-financial factors, such as changes in the District's tax base, staffing patterns, enrollment, and attendance, need to be considered in order to assess the overall health of the District.

The Statement of Activities presents information showing how the District's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows – the accrual method rather than modified accrual that is used in the fund level statements.

The Statement of Net Position and the Statement of Activities include the following class of activities:

Governmental Activities – Most of the District's basic services such as instruction, extracurricular activities, curriculum and staff development, health services, general administration, and plant operation and maintenance are included in *governmental activities*. Locally assessed property taxes, together with State foundation program entitlements, which are based upon student enrollment and attendance, finance most of the governmental activities.

The government-wide financial statements can be found after the MD&A.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's most significant funds – not the District as a whole. Funds are simply accounting devices that are used to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and other funds are mandated by bond agreements or bond covenants.
- The Board of Trustees establishes other funds to control and manage money set aside for particular purposes or to show that the District is properly using certain taxes and grants.
- Other funds are used to account for assets held by the District in a custodial capacity – these assets do not belong to the District, but the District is responsible to properly account for them.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
For the Year Ended August 31, 2016

The District has the following kinds of funds:

- *Governmental funds* – Most of the District's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them.
- *Proprietary funds* – The District maintains internal service funds as proprietary funds. Internal service funds account for services provided to other departments of the District on a cost reimbursement basis. The District uses these funds to account for the concession fund, the group health insurance fund, the workers' compensation insurance fund, the care here fund, and the flex spending fund. The District accumulates resources in the insurance funds from all District funds whose expenditures include payments to employees. Normal expenses in the insurance funds are expenses related to claims and administrative expenses. The concession fund is financed through user fees paid by patrons of the District with any shortfall paid from District funds.
- *Fiduciary funds* – The District serves as the trustee, or fiduciary, for certain funds such as student activity funds and various trust funds. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities that are reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These activities are excluded from the District's government-wide financial statements because the District cannot use these assets to finance its governmental operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's combined net position was \$63,341,008 at August 31, 2016. *Table 1* focuses on net position while *Table 2* shows the revenues and expenses that changed the net position balance during the fiscal year ended August 31, 2016. *Table 1* indicates the District's net position decreased \$1,018,105 in total from the prior year. The details of this decrease can be seen in *Table 2*. The District experienced an increase in total revenue of \$7,486,050 due to increases in property taxes and grants and contributions not restricted for specific programs. The increase in property tax revenue is related to the rise in property valuations. The increase in grants and contributions not restricted for specific programs is related to the recognition of the on-behalf pension contributions. Expenses increased by \$6,271,286 in comparison to 2015. The largest increases occurred in the instruction and curriculum/instructional staff development functions, as well as the contracted instructional services between public schools. Instruction expenses increased due to an increase in personnel costs. Curriculum/instructional staff development increased due to an increase in salaries, as well as grant-related consulting services. Contracted instructional services between schools increased due to the District's final settle-up of Chapter 41 recapture payments.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
For the Year Ended August 31, 2016

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

At the close of the fiscal year ending August 31, 2016, the District's governmental funds reported a combined fund balance of \$39,034,926. This compares to a combined fund balance of \$38,750,870 at August 31, 2015. The fund balance in the general fund increased by \$1,469,191, prior to net transfers of \$23,700. The increase can be attributed largely to an increase in property tax revenue. The District budgeted for a deficiency of revenues under expenditures, net of transfers, of \$1,276,342, and reported a positive budget variance of \$2,721,833.

The Hurricane Ike disaster reimbursement fund reported no change in fund balance.

The debt service fund had an increase in fund balance of \$56,584 due to property tax collections in excess of debt service payments.

GENERAL FUND BUDGETARY HIGHLIGHTS

In accordance with State law and generally accepted accounting standards, the District prepares an annual budget for the general fund, the food service special revenue fund, and the debt service fund. The District budgets the capital projects fund for each *project*, which normally covers multiple years. Special revenue funds have budgets approved by the funding agency and are amended throughout the year as required.

During the period ended August 31, 2016, the District amended its budget as required by State law and to reflect current levels of revenue and anticipated expenses. There were no material changes between the original budget and the final amended budget. The general fund's actual revenues were more than budgeted revenues by \$1,363,952 as a result of more state funding than anticipated. Total general fund budgeted expenditures exceeded actual expenditures by \$1,357,881 with the largest positive variances in contracted instructional services.

CAPITAL ASSETS

Capital assets are generally defined as those items that have useful lives of two years or more and have an initial cost or value (if donated) of an amount determined by the Board of Trustees. During the fiscal year ended August 31, 2016, the District used a capitalization threshold of \$5,000, which means that all capital type assets, including library books, with a cost or initial value of less than \$5,000 were not included in the capital assets inventory.

At August 31, 2016, the District had a total of \$180,265,781 invested in capital assets such as land, buildings, and District equipment. This total includes \$2,403,385 invested during the fiscal year ended August 31, 2016.

More detailed information about the District's capital assets can be found in note III.B. to the financial statements.

LONG-TERM DEBT

At year end, the District had \$51,379,998 in general obligation bonds outstanding versus \$55,309,998 last year. The District paid \$3,930,000 in principal payments during the year.

More detailed information about the District's long-term liabilities is presented in note III.C. to the financial statements.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)
For the Year Ended August 31, 2016

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The District's budgeted expenditures for the 2016-2017 school year total \$80,329,887, and the District's Board of Trustees adopted a Maintenance and Operations tax rate of \$1.060 and an Interest and Sinking rate of \$0.095 for a combined rate of \$1.155.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Dr. Kelli Moulton, Superintendent, at P.O Box 660, Galveston, Texas 77553 or by calling (409) 766-5100.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION - EXHIBIT C-1R
August 31, 2016

Total fund balances for governmental funds \$ 39,034,926

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and, therefore, not reported in the governmental funds.

Capital assets - non-depreciable	4,366,348	
Capital assets - depreciable	81,281,650	
	81,281,650	85,647,998

Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the governmental funds.		3,128,808
---	--	-----------

The assets and liabilities of the internal service funds are included in the governmental activities in the Statement of Net Position.		814,424
--	--	---------

Some liabilities, including bonds payable, are not reported as liabilities in the governmental funds.

Accrued interest	(158,552)	
Deferred charge on refunding	2,235,054	
Deferred outflows - pensions	11,539,326	
Deferred inflows - pensions	(3,319,202)	
Net pension liability	(18,644,868)	
Non-current liabilities due in one year	(4,415,709)	
Non-current liabilities due in more than one year	(52,521,197)	
	(65,285,148)	(65,285,148)

Net Position of Governmental Activities		\$ 63,341,008

GALVESTON
INDEPENDENT SCHOOL DISTRICT
*RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES - EXHIBIT C-3*
For the Year Ended August 31, 2016

Net change in fund balances - total governmental funds	\$	284,056
--	----	---------

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Depreciation		(6,252,818)
Capital outlay		2,403,385

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		76,638
--	--	--------

The issuance of long-term debt (e.g., bonds, leases, certificates of obligation) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued; whereas, these amounts are deferred and amortized in the Statement of Activities.

Principal repayments		3,930,000
Accrued interest		3,988
Amortization of loss on bond refunding		(280,416)
Amortization of premiums		531,689
Accreted interest		(34,860)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Change in compensated absences		(24,291)
Change in net pension liability		(10,200,732)
Amortization of deferred inflows - pensions		(736,116)
Amortization of deferred outflows - pensions		9,298,036

Internal service funds are used by management to charge the costs of certain activities, such as self-insurance, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities.		(16,664)

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
For the Year Ended August 31, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Galveston Independent School District (the “District”) is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees (the “Board”) elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and it complies with the requirements of the appropriate version of the Texas Education Agency’s (TEA) *Financial Accountability System Resource Guide* (the “Resource Guide”) and the requirements of contracts and grants of agencies from which it receives funds.

The District is an independent political subdivision of the State of Texas governed by a board elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations, and is considered a primary government. As required by GAAP, basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the District’s financial reporting entity. No other entities have been included in the District’s reporting entity. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations, or functions in the District’s financial reporting entity are based on criteria prescribed by GAAP. These same criteria are evaluated in considering whether the District is a part of any other governmental or other type of reporting entity. The overriding elements associated with the prescribed criteria considered in determining that the District’s financial reporting entity status is that of a primary government are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Additionally, prescribed criteria under GAAP include considerations pertaining to organizations for which the primary government is financially accountable, and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

B. Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately.

C. Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following governmental funds:

General Fund

The general fund is the District's primary operating fund. It is used to account for and report all all financial resources not accounted for and reported in another fund. The general fund is always considered a major fund for reporting purposes.

Debt Service Fund

The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest on all long-term debt of the District. The primary source of revenue for debt service is local property taxes. While the debt service fund does not meet the requirements to be considered a major fund, it is reported as such due to its significance.

Capital Projects Fund

The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Special Revenue Funds

The special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service. The restricted or committed proceeds of specific revenue sources comprise a substantial portion of the inflows of these special revenue funds. Most federal and some state financial assistance is accounted for in a special revenue fund. The Hurricane Ike disaster reimbursement fund is considered a major fund for reporting purposes.

Proprietary Funds

Proprietary funds are used to account for activities that are similar to those often found in the private sector. All assets, liabilities, equities, revenues, expenses, and transfers relating to the

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

District's business-type activities are accounted for through proprietary funds. The measurement focus is on determination of net income, financial position, and cash flows. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues include charges for services. Operating expenses include costs of materials, contracts, personnel, and depreciation. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The proprietary fund types used by the District include the following:

Internal Service Funds

These funds are used to account for and report revenue and expenses related to services provided to parties inside the District on a cost reimbursement basis. These funds account for the District's concession services, group health insurance benefits, workers' compensation risk management, care here services, and flex spending benefits. Because the principal users of the internal service funds are the District's governmental activities, this fund type is included in the governmental activities column of the governmental-wide financial statements.

Fiduciary Funds

The fiduciary funds account for assets held by the District in a trustee capacity or as an agent on behalf of others. Fiduciary funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the District's own programs. The District has the following type of fiduciary funds:

Agency Funds

The agency funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting. These funds are used to account for the District's student activity funds.

Trust Funds

The trust funds are custodial in nature and do not present results of operations or have a measurement focus. Trust funds are accounted for using the accrual basis of accounting. These funds are used to account for the District's private purpose funds.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, grant revenue, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the District.

F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Investments

In accordance with GASB Statement No. 72, "*Fair Value Measurement and Application*," the District reports all investments at fair value, except for "money market investments", "2a7-like

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

external investment pools”, and other investments as specified by the standard. Money market investments, which are short-term highly liquid debt instruments that may include U.S. Treasury securities, commercial paper, and banker’s acceptances, are reported at amortized costs. Investment positions in external investment pools that are operated in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940, such as Texas CLASS, are reported using the pools’ share price.

The District has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, Texas Government Code. In summary, the District is authorized to invest in the following:

- Direct obligations of the U.S. Government
- Fully collateralized certificates of deposit and money market accounts
- Statewide investment pools and commercial paper

3. Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred (i.e., the purchase method).

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

4. Restricted Assets

Certain proceeds of bonds, as well as other resources set aside for specific purposes, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants or contractual agreements.

5. Capital Assets

Capital assets, which include land, buildings, furniture, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets’ lives are not capitalized.

GALVESTON

INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS (Continued)

For the Year Ended August 31, 2016

Property, plant, and equipment of the District are depreciated using the straight-line method over the following estimated useful years:

Asset Description	Estimated Useful Life
Buildings and improvements	10 to 50 years
Furniture and equipment	5 to 20 years
Vehicles	5 to 20 years

6. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The District has six items that qualify for reporting in this category on the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Deferred charges have been recognized as a result of differences between the actuarial expectations and the actual economic experience, for the changes in actuarial assumptions, and for the changes in proportion and difference between the employer's contributions and the proportionate share of contributions related to the District's defined benefit pension plan. These amounts are deferred and amortized over the average of the expected service lives of pension plan members. Deferred outflows of resources are also recognized for the difference between the projected and actual investment earnings on the pension plan assets. This amount is deferred and amortized over a period of five years. A deferred charge has been recognized for employer pension plan contributions that were made subsequent to the measurement date through the end of the District's fiscal year. This amount is deferred and recognized as a reduction to the net pension liability during the measurement period in which the contributions were made.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has four items that qualify for reporting in this category in the government-wide Statement of Net Position. Deferred charges have been recognized as a result of differences between the actuarial expectations and the actual economic experience, for the changes in actuarial assumptions, and for the changes in proportion and difference between the employer's contributions and the proportionate share of contributions related to the District's defined benefit pension plan. These amounts are deferred and amortized over the average of the expected service lives of pension plan members. Deferred inflows of resources are recognized for the difference between the projected and actual investment earnings on the pension plan assets. This amount is deferred and amortized over a period of five years. At the fund level, the District has only one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

7. Compensated Employee Absences

It is the District's policy to permit certain employees to accumulate earned but unused vacation benefits. These employees must be employed to work 260 days per year. Amounts accumulated, up to certain amounts, may be paid to employees upon termination of employment.

8. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements until due. The debt proceeds are reported as other financing sources, net of the applicable premium or discount and payment of principal and interest reported as expenditures. In the governmental fund types, issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. However, claims and judgments paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable, available financial resources.

The property tax rate is allocated each year between the general and debt service funds. The full amount estimated to be required for debt service on general obligation debt is provided by the tax along with the interest earned in the debt service fund.

9. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

10. Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

11. Fund Balance Policies

Fund balances of governmental funds are reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

Amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact are classified as nonspendable fund balance. Amounts that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions are classified as restricted fund balance.

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The District's Board is the highest level of decision-making authority for the District that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The District's Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

12. Estimates

The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

13. Data Control Codes

The data control codes refer to the account code structure prescribed by the TEA in the Resource Guide. The TEA requires school districts to display these codes in the financial statements filed with the TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

14. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets,

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

liabilities, and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

G. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Property Taxes

All taxes due to the District on real or personal property are payable at the Office of the Tax Assessor-Collector and may be paid at any time after the tax rolls for the year have been completed and approved, which is no later than October 1. Taxes are due by January 31, and all taxes not paid prior to this date are deemed delinquent and are subject to such penalty and interest.

Property taxes attach as an enforceable lien on property as of January 1 each year. Taxes are levied on October 1 and are payable prior to the next February 1. District property tax revenues are recognized when collected.

3. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the internal service funds are charges to other departments of the District for services provided. Operating expenses for the internal service funds include the cost of sales and services, payments to employees, and claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with GAAP. The original budget is adopted by the District prior to the beginning of the year. The legal level of control is the function code stated in the approved budget. Appropriations lapse at the end of the year, excluding capital project budgets. Supplemental budget appropriations were made for the year.

In accordance with State law and generally accepted accounting standards, the District prepares an annual budget for the general fund, the national school lunch and breakfast program special revenue fund, and the debt service fund. The District budgets the capital projects fund for each *project*, which normally covers multiple years. Special revenue funds have budgets approved by the funding agency and are amended throughout the year as required.

GALVESTON

INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS (Continued)

For the Year Ended August 31, 2016

During the year, the District amended its budget as required by State law and to reflect current levels of revenue and anticipated expenditures. There were no material changes between the original budget and the final amended budget.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

As of August 31, 2016, the District had the following investments in external investment pools:

<u>Investments</u>	<u>Maturity</u>	<u>Amount</u>	<u>Weighted Average Maturity (Years)</u>
MBIA - Texas CLASS Investment Pool General Fund	N/A	\$ 1,853,085	0.00
MBIA - Texas CLASS Investment Pool Debt Service Fund	N/A	1,289,133	0.00
		<u>\$ 3,142,218</u>	
Portfolio weighted average maturity			0.000

Interest rate risk. In accordance with its investment policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years or less.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy requires funds on deposit at the depository bank to be collateralized. As of August 31, 2016, checking accounts were entirely insured or collateralized with securities as provided by State laws and regulations and FDIC insurance.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. A portion of the District's investments are held in external investment pools which are not subject to custodial credit risk. At year end, the District had \$3,142,218 invested in the Cooperative Liquid Assets Securities System-Texas (CLASS) Investment Pool.

Texas CLASS is a public funds investment pool under Section 2256.016 of the Public Funds Investment Act, Texas Government Code, as amended. CLASS is created under an Amended and Restated Trust Agreement, dated as of December 14, 2011 (the "Agreement"), among certain Texas governmental entities investing in CLASS (the "Participants"), with Cutwater Investor Services Corporation as Program Administrator and Wells Fargo Bank Texas, NA as Custodian. CLASS is not SEC registered and is not subject to regulation by the State of Texas. Under the Agreement, however, CLASS is administered and supervised by a seven-member board of trustees (the "Board"), whose members are investment officers of the Participants, elected by the Participants for overlapping two-year terms. In the Agreement and by resolution of the Board, CLASS has contracted with Cutwater Investors Service Corporation to provide for the investment and management of the public funds of CLASS. Separate financial statements for Texas CLASS may be obtained from CLASS' website at www.texasclass.com.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

Texas CLASS uses amortized cost rather than market value to report net position to compute share prices. Accordingly, the fair value of the position in Texas CLASS is the same as the value of Texas CLASS shares.

Fair Value Measurements

GASB Statement No. 72, "Fair Value Measurement and Application" establishes an authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurements. The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: level 1 inputs are quoted prices in active markets for identical assets; level 2 inputs are significant other observable inputs; and level 3 inputs are significant unobservable inputs. The District does not have any investments that are measured using level 2 or level 3 inputs.

At August 31, 2016, the District had the following recurring fair value measurements:

Description	8/31/16	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value				
Money market mutual funds	\$ 917,034	\$ 917,034	\$ -	\$ -
Total	<u>\$ 917,034</u>	<u>\$ 917,034</u>	<u>\$ -</u>	<u>\$ -</u>

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Investments categorized as Level 1 are valued based on prices quoted in active markets for those securities.

Investments categorized as Level 2 are valued using the following approaches:

- U.S. Treasuries, governmental agencies, and commercial paper: quoted prices for identical securities in markets that are not active;
- Corporate and municipal bonds: quoted prices for similar securities in active markets;
- Repurchase agreements, negotiable certificates of deposit, and collateralized debt obligations: matrix pricing based on the securities' relationship to benchmark quoted prices;
- Money market, bond, and equity mutual funds: published fair value per share (unit) for each fund.

Investments categorized as Level 3 are valued using discounted cash flow techniques or are valued using consensus pricing.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

B. Capital Assets

A summary of changes in capital assets for governmental activities at year end is as follows:

Governmental Activities:	Beginning Balances	Increases	(Decreases)	Ending Balances
Capital assets not being depreciated:				
Land	\$ 4,366,348	\$ -	\$ -	\$ 4,366,348
Total Capital Assets Not Being Depreciated	<u>4,366,348</u>	<u>-</u>	<u>-</u>	<u>4,366,348</u>
Other capital assets:				
Buildings and improvements	159,307,541	1,775,600	(191,750)	160,891,391
Furniture and equipment	9,609,646	152,458	-	9,762,104
Vehicles	4,770,611	475,327	-	5,245,938
Total Other Capital Assets	<u>173,687,798</u>	<u>2,403,385</u>	<u>(191,750)</u>	<u>175,899,433</u>
Less accumulated depreciation for:				
Buildings and improvements	(78,585,267)	(5,349,492)	191,750	(83,743,009)
Furniture and equipment	(7,283,348)	(528,935)	-	(7,812,283)
Vehicles	(2,688,100)	(374,391)	-	(3,062,491)
Total Accumulated Depreciation	<u>(88,556,715)</u>	<u>(6,252,818)</u>	<u>191,750</u>	<u>(94,617,783)</u>
Other capital assets, net	<u>85,131,083</u>	<u>(3,849,433)</u>	<u>-</u>	<u>81,281,650</u>
Governmental Activities Capital Assets, Net	<u>\$ 89,497,431</u>	<u>\$ (3,849,433)</u>	<u>\$ -</u>	<u>85,647,998</u>
			Less associated debt	(56,060,216)
			Plus deferred charge on refunding	<u>2,235,054</u>
			Net Investment in Capital Assets	<u>\$ 31,822,836</u>

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

Depreciation was charged to governmental functions as follows:

	Governmental Activities
11 Instruction	\$ 528,107
12 Instructional resources and media services	3,310
13 Curriculum and instructional staff development	4,424
23 School leadership	4,220
34 Student transportation	237,911
35 Food services	190,789
36 Extracurricular activities	7,517
51 Plant maintenance and operations	273,292
53 Data processing services	30,703
81 Facilities acquisition and construction	4,972,545
Total Depreciation Expense	\$ 6,252,818

C. Long-Term Debt

The following is a summary of changes in the District's total governmental long-term liabilities for the year. In general, the District uses the general and debt service funds to liquidate governmental long-term liabilities.

	Beginning Balance	Additions	(Reductions)	Ending Balance	Amounts Due Within One Year
Governmental Activities:					
Bonds payables:					
Series 2008 4.00%	\$ 3,830,000	\$ -	\$ (1,225,000)	\$ 2,605,000	\$ 1,275,000
Series 2011 2.00 - 3.00%	8,269,998	-	(100,000)	8,169,998	100,000
Series 2012 2.00 - 4.00%	9,065,000	-	(1,170,000)	7,895,000	2,995,000
Series 2013 2.00 - 5.00%	34,145,000	-	(1,435,000)	32,710,000	-
	<u>55,309,998</u>	<u>-</u>	<u>(3,930,000)</u>	<u>51,379,998</u>	<u>* 4,370,000</u>
Other liabilities:					
Compensated absences	26,497	48,138	(23,847)	50,788	45,709
Unamortized premium	5,211,907	-	(531,689)	4,680,218	*
Accreted interest	<u>791,042</u>	<u>34,860</u>	<u>-</u>	<u>825,902</u>	<u>-</u>
Total Governmental Activities	\$ 61,339,444	\$ 82,998	\$ (4,485,536)	\$ 56,936,906	\$ 4,415,709
Long-term liabilities due in more than one year				\$ 52,521,197	
*Debt associated with capital assets				\$ 56,060,216	

Long-term liabilities applicable to the District's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

The annual requirements to amortize debt issues outstanding at year end were as follows:

Year Ended Aug 31	Principal	Interest	Total Requirements
2017	\$ 4,370,000	\$ 1,865,738	\$ 6,235,738
2018	4,510,000	1,727,925	6,237,925
2019	3,100,000	1,593,088	4,693,088
2020	2,414,998	2,449,151	4,864,149
2021	3,580,000	1,417,700	4,997,700
2022-2026	19,550,000	4,785,600	24,335,600
2027-2029	13,855,000	654,800	14,509,800
	<u>\$ 51,379,998</u>	<u>\$ 14,494,002</u>	<u>\$ 65,874,000</u>

D. Commitments Under Noncapitalized Leases

During the year, the District expended a total of \$30,700 for operating (non-capitalized) leases and, in accordance with standard non-appropriation clauses in the various lease agreements, the District has no future obligation in relation to these leases.

E. Interfund Transactions

The following is a summary of the District's interfund transactions for the year:

	Due From Other Funds
General fund	
Hurricane Ike fund	\$ 17,476,485
Other governmental funds	1,654,908
Total General Fund	<u>19,131,393</u>
Other governmental funds	
General	14
Total Other Governmental Funds	<u>14</u>
Total	<u>\$ 19,131,407</u>

Amounts recorded as due to/from are considered to be temporary loans and will be repaid during the following year.

Transfers In	Transfers Out	Amount
Other governmental funds	General fund	\$ 23,700
Other governmental funds	Other governmental funds	821,423
	Total	<u>\$ 845,123</u>

Amounts transferred between funds related to the funding of certain capital projects.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

F. Leases

The District is the lessor of approximately 4 acres of its property to Moody Early Childhood Center, a non-profit corporation (the "Corporation"). This lease agreement is an operating lease with estimated minimum rental payments with annually adjusted rates. The terms of the lease state that for the first two years of the lease term, the Corporation will pay the District an amount equal to fifty percent of the total amount of salary and benefits paid to, or provided by, the District to certain teachers and teachers' aides who provide services for the Corporation. For the third, fourth, and fifth years of the lease term, the Corporation will pay the District an amount equal to the total amount of salary and benefits paid to, or provided by, the District to certain teachers and teachers' aides who provide services for the Corporation. The annual payments will be finalized by the District and provided to the Corporation no later than July 1 of the applicable year. The lease term commenced on July 1, 2016 and will terminate on June 30, 2021; however, the District may terminate the lease by giving the Corporation a minimum of twelve months written notice. Rental income is earned from leasing this property to the Corporation. Minimum guaranteed income of all District non-cancelable operating leases is as follows:

Year Ended August 31	Annual Base Rent Estimate
2017	\$ 470,000
2018	385,000
2019	770,000
2020	770,000
2021	770,000
Total	\$ 3,165,000

IV. OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the District purchases commercial insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three years.

B. Contingent Liabilities

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the District's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the District.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts, and other economic and social factors. No claim liabilities are reported at year end.

The Tax Reform Act of 1986 instituted certain arbitrage restrictions consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service (IRS) at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed, or not performed correctly, it could result in a substantial liability to the District. Although the District does not anticipate that it will have any arbitrage liability, it periodically engages an arbitrage consultant to perform the calculations in accordance with IRS rules and regulations.

C. Defined Benefit Pension Plan

Teacher Retirement System

Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the TRS's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the 5 highest annual creditable salaries times

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the 3 highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes, including automatic cost of living adjustments (COLAs). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan Description above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 through 2017. The 83rd Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

<u>Contribution Rates</u>	<u>2015</u>	<u>2016</u>
Member	6.7%	7.2%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%
2015 Employer Contributions	\$1,561,821	
2015 Member Contributions	\$1,358,739	
2015 NECE On-behalf Contributions	\$1,951,495	

Contributors to the plan include members, employers, and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools, and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the GAA.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational, and general or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of TRS, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors, and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees and 100% of the state contribution rate for all other employees.

Actuarial Assumptions

The total pension liability in the August 31, 2015 actuarial valuation was determined using the following actuarial assumptions:

Valuation date	August 31, 2015
Actuarial cost method	Individual entry age normal
Asset valuation method	Market value
Single discount rate	8.0%
Long-term expected investment rate of return	8.0%
Inflation	2.5%
Salary increases including inflation	3.5% to 9.5%
Payroll growth rate	2.5%
Benefit changes during the year	None
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four-year period ending August 31, 2014 and adopted on September 24, 2015.

Discount Rate

The discount rate used to measure the total pension liability was 8%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the system's target asset allocation as of August 31, 2015 are summarized below:

Asset Class	Target Allocation	Long-Term Expected Geometric Real Rate of Return	Expected Contribution to Long-Term Portfolio Returns *
Global Equity			
U.S.	18.0%	4.6%	1.0%
Non-U.S. Developed	13.0%	5.1%	0.8%
Emerging Markets	9.0%	5.9%	0.7%
Directional Hedge Funds	4.0%	3.2%	0.1%
Private Equity	13.0%	7.0%	1.1%
Stable Value			
U.S. Treasuries	11.0%	0.7%	0.1%
Absolute Return	0.0%	1.8%	0.0%
Stable Value (Hedge Funds)	4.0%	3.0%	0.1%
Cash	1.0%	-0.2%	0.0%
Real Return			
Global Inflation Linked Bonds	3.0%	0.9%	0.0%
Real Assets	16.0%	5.1%	1.1%
Energy and Natural Resources	3.0%	6.6%	0.2%
Commodities	0.0%	1.2%	0.0%
Risk Parity			
Risk Parity	5.0%	6.7%	0.3%
Inflation Expectation	0.0%		2.2%
Alpha	0.0%		1.0%
Total	100.0%		8.7%

* The Expected Contribution to Returns incorporates the volatility drag resulting from the conversion between Arithmetic and Geometric mean returns.

INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS (Continued)

For the Year Ended August 31, 2016

Discount Rate Sensitivity Analysis

The following schedule shows the impact of the net pension liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the 2015 net pension liability.

	1% Decrease in Discount Rate (7%)	Current Discount Rate (8%)	1% Increase in Discount Rate (9%)
District's proportionate share of the net pension liability	\$ 29,212,993	\$ 18,644,868	\$ 9,842,276

Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources Related to Pensions

At August 31, 2016, the District reported a liability of \$18,644,868 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 18,644,868
State's proportionate share that is associated with the District	23,289,689
Total	\$ 41,934,557

The net pension liability was measured as of August 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2014 through August 31, 2015.

At August 31, 2015, the District's proportion of the collective net pension liability was 0.0527456%, which was an increase of 0.0211356% from its proportion measured as of August 31, 2014.

Changes Since the Prior Actuarial Valuation – The following are changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

Economic Assumptions

1. The inflation assumption was decreased from 3.00% to 2.50%.
2. The ultimate merit assumption for long-service employees was decreased from 1.25% to 1.00%.
3. In accordance with the observed experience, there were small adjustments in the service based promotional/longevity component of the salary scale.
4. The payroll growth assumption was lowered from 3.50% to 2.50%.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

Mortality Assumptions

5. The post-retirement mortality tables for non-disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
6. The post-retirement mortality tables for disabled retirees were updated to reflect recent TRS member experience. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.
7. The pre-retirement mortality tables for active employees were updated to use 90% of the recently published RP-2014 mortality table for active employees. Mortality rates will be assumed to continue to improve in the future using a fully generational approach and Scale BB.

Other Demographic Assumptions

8. Previously, it was assumed 10% of all members who had contributed in the past 5 years to be an active member. This was an implicit rehire assumption because teachers have historically had a high incidence of terminating employment for a time and then returning to the workforce at a later date. This methodology was modified to add a more explicit valuation of the rehire incidence in the termination liabilities and, therefore, these 10% are no longer being counted as active members.
9. There were adjustments to the termination patterns for members consistent with experience and future expectations. The termination patterns were adjusted to reflect the rehire assumption. The timing of the termination decrement was also changed from the middle of the year to the beginning to match the actual pattern in the data.
10. Small adjustments were made to the retirement patterns for members consistent with experience and future expectations.
11. Small adjustments to the disability patterns were made for members consistent with experience and future expectations. Two separate patterns were created based on whether the member has 10 years of service or more.
12. For members that become disabled in the future, it is assumed 20% of them will choose a 100% joint and survivor annuity option.

Actuarial Methods and Policies

13. The method of using celled data in the valuation process was changed to now using individual data records to allow for better reporting of some items, such as actuarial gains and losses by source.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

For the year ended August 31, 2016, the District recognized pension expense of \$4,957,243 and revenue of \$3,318,432 for support provided by the State.

At August 31, 2016, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual economic experience	\$ 108,608	\$ 716,539
Changes in actuarial assumptions	456,484	665,167
Difference between projected and actual investment earnings	4,591,816	1,935,655
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	4,825,845	1,841
Contributions paid to TRS subsequent to the measurement date	1,556,573	-
Total	<u><u>\$ 11,539,326</u></u>	<u><u>\$ 3,319,202</u></u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended August 31	Pension Expense Amount
2017	\$ 1,200,204
2018	1,200,204
2019	1,200,204
2020	1,845,423
2021	690,697
Thereafter	526,819
Total	<u><u>\$ 6,663,551</u></u>

D. Retiree Health Care Plan

Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program ("TRS-Care"), a cost-sharing, multiple-employer defined benefit postemployment health care plan administered by TRS. TRS-Care provides health care coverage for certain persons (and their dependents) who retired under TRS. The statutory authority for the program is Texas Insurance Code, Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. TRS issues a publicly available financial report that includes financial statements and Required Supplementary Information for TRS-Care. That report may be obtained by visiting the TRS website at www.trs.state.tx.us; by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701; or by calling 1-800-223-8778.

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. Texas Insurance Code, Sections 1575.202, 203, and 204 establish state, active employee, and public school contributions, respectively. The State of Texas and active public school employee contribution rates were 1 percent and 0.65 percent of public school payroll, respectively, with school districts contributing a percentage of payroll set at 0.55 percent for fiscal years 2016, 2015, and 2014. Per Texas Insurance Code, Chapter 1575, the public school contribution may not be less than 0.25 percent or greater than 0.75 percent of the salary of each active employee of the public school. For the years ended August 31, 2016, 2015, and 2014, the State's contributions to TRS-Care were \$31,356, \$33,940, and \$27,055, respectively; the active member contributions were \$284,621, \$275,075, and \$238,280, respectively; and the District's contributions were \$240,833, \$232,755, and \$201,621, respectively; which equaled the required contributions each year.

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for TRS-Care to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the fiscal years ended August 31, 2016, 2015, and 2014, the subsidy payments received by TRS-Care on behalf of the District were \$169,015, \$173,279, and \$99,848, respectively.

E. Employee Health Care Coverage

During the year ended August 31, 2016, employees of the District were covered by a health insurance plan (the "Plan"). The District paid premiums of \$300 per month per employee to the Plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependants. All premiums were paid to a licensed insurer. The Plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement. The contract between the District and the insurer is renewable September 1, 2016 and terms of coverage and premiums costs are included in the contractual provisions.

F. Workers' Compensation Insurance

During the year ended August 31, 2016, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the "Fund"). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Workers' Compensation Program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute interlocal agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members' injured employees.

The Fund and its members are protected against higher than expected claims costs through the purchase of stop-loss coverage for any claim in excess of the Fund's self-insured retention of \$2 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. As of August 31, 2015, the Fund carries a discounted reserve of \$58,364,320 for future development on reported claims and claims that have been incurred but not

GALVESTON
INDEPENDENT SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS (Continued)
For the Year Ended August 31, 2016

yet reported. For the year ended August 31, 2016, the Fund anticipates no additional liability to members beyond their contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2015 are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

G. Unemployment Compensation

During the year ended August 31, 2016, the District met its statutory unemployment compensation obligations by participating as a self-funded member of the TASB Risk Management Fund (the "Fund"). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and Chapter 504 of the Texas Labor Code. All members participating in the Fund execute interlocal agreements that define the responsibilities of the parties.

As a self-funded member of the TASB Risk Management Fund, the District is solely responsible for all unemployment compensation claim costs, both reported and unreported. The Fund provides administrative services to its self-funded members including claims administration and customer service.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2015 are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

H. Shared Services Arrangements

The District is the fiscal agent for two shared services arrangements (SSA) which provide services for visually impaired students to the member districts listed below. All services are provided by the fiscal agent. The member districts provide the funds to the fiscal agent.

According to guidance provided in the TEA's Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in special revenue funds and will be accounted for using Model 3 in the SSA section of the Resource Guide.

GALVESTON

INDEPENDENT SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS (Continued)

For the Year Ended August 31, 2016

Expenditures of the SSA are summarized below:

Visually Impaired Program - Fund 446

Member Districts

La Marque ISD	\$ 7,542
Texas City ISD	26,396
Galveston ISD	28,910
Total	\$ 62,848

Supplemental Visually Impaired for Special Education - Fund 434

Member Districts

Hitchcock ISD	\$ 11,873
Texas City ISD	17,810
Dickinson ISD	17,810
Galveston ISD	27,309
Friendswood ISD	37,994
La Marque ISD	5,937
Total	\$ 118,733

I. Hurricane Ike

The eye of Hurricane Ike made landfall on September 13, 2008 just to the east of Galveston Island and resulted in catastrophic damage to the District's entire service area. At landfall, the storm was rated as a category 2 hurricane; however, Ike's width beyond the eye of the storm was large with a storm surge disproportional to its wind speed (category). The storm resulted in extensive flooding submerging substantial portions of the Galveston area. In addition, wind damage was significant. Ike's damage along the Gulf Coast was estimated to reach \$31.5 billion, which would make it the third costliest hurricane on record. In addition, the District's service area suffered a huge economic devastation beyond the direct damage caused by the storm.

Damage to the District's facilities was extensive, amounting to approximately \$47,900,000. The District expects to receive approximately \$8,400,000 in insurance proceeds. The Federal Emergency Management Agency (FEMA) has already paid the District approximately \$17,750,000 under various grant programs and another \$17,476,485 is anticipated based on expenses incurred to date. However, some additional expenses have yet to be incurred. It is anticipated that FEMA will pay only 90 percent of expenses incurred, less insurance proceeds. The remaining ten percent shall be covered by the District. While many of these expenditures incurred by the District are expected to be reimbursed by FEMA, it has been the experience of other local governments in the area that application of policies and procedures has varied and the exact amount that will be recovered is unknown. In addition, as costs are still being incurred, the exact cost cannot be determined. The Department of Homeland Security has begun to review the State of Texas' and FEMA's handling of other governments' claims and have been critical of the handling of these agencies. Such reviews could additionally impact the amount received by the District. Management of the District has estimated the damages incurred, the insurance proceeds remaining, and the amounts it anticipates to recover from FEMA. However, the amount ultimately expended by the District, received from insurance proceeds, and paid by FEMA could vary significantly.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

December 8, 2016

To the Board of Trustees of the
Galveston Independent School District:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Galveston Independent School District (the "District"), as of and for the year ended August 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 8, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

December 8, 2016

To the Board of Trustees of the
Galveston Independent School District:

Report on Compliance for Each Major Federal Program

We have audited the Galveston Independent School District's (the "District") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended August 31, 2016. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2016.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS
For the Year Ended August 31, 2016

A. SUMMARY OF PRIOR YEAR AUDIT FINDINGS

No prior year findings.

(This page intentionally left blank.)

GALVESTON
INDEPENDENT SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
For the Year Ended August 31, 2016

A. SUMMARY OF AUDIT RESULTS

1. The auditors' report expresses an unmodified opinion on the financial statements of Galveston Independent School District (the "District").
2. No significant deficiencies or material weaknesses in internal control were disclosed by the audit of the basic financial statements.
3. No instances of noncompliance material to the financial statements were disclosed during the audit.
4. No significant deficiencies or material weaknesses in internal control over major federal award programs were disclosed by the audit.
5. The auditors' report on compliance for the major federal award programs expresses an unmodified opinion.
6. No audit findings relative to the major federal award programs for the District are reported in Part C of this schedule.
7. The programs included as major programs are:

<u>CFDA Numbers</u>	<u>Name of Federal Program</u>
84.010	ESEA, Title I
10.553, 10.555, 10.559	Child Nutrition Cluster
17.274	YouthBuild Grant

8. The threshold for distinguishing Type A and B programs was \$750,000.
9. The District did qualify as a low-risk auditee.

B. FINDINGS – BASIC FINANCIAL STATEMENT AUDIT

None Noted

C. FINDINGS – FEDERAL AWARDS

None Noted

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
For the Year Ended August 31, 2016

NOTE 1: BASIS OF ACCOUNTING

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Galveston Independent School District, and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 2: INDIRECT COST RATE

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.
